ABOUT ME

I enjoy building creative and accessible front-end solutions. With user accessibility and visual aesthetics in mind, I am passionate about Customer Satisfaction and Value Realization when it comes to delivering a wonderful user-experience. My style of design and development revolves around user experience and simplistic codes.

I enjoy problem solving on the proactive with responsive and clean Front end code design. Industry Standards D.R.Y methods with other technical skills in debugging and troubleshooting. My main passion is in React.JS, JavaScript, CSS3, and HTML5
