SKILLS // FRAMEWORKS

- Proficient in **HTML5, CSS3, SASS, BOOTSTRAP, CSS3 Animations**
- Other technical skills: **Git, GitHub, Firebase, REST, NPM**
- **Responsive / Adaptive** Front End code design with aesthetic features
- Experience **troubleshooting** issues with websites with industry practices in mind
- Programming Languages – Modern **JavaScript ES6 // JSON // MVC**
 - Frameworks: **React.js > Redux, Hooks, Async / Await, API Fetch, AXIOS**

MY PROJECTS

- **GMDB** (IMBD for Video Games) - <https://frontalbert.github.io/GMDB/>
 - **Built using: (REACT.JS / REDUX / API)**
 - Fetch the latest game titles using a fetch API and AXIOS call
 - Redux – Reducer's implementation
 - Sort games by platform, review scores and franchise titles
 - Fully Responsive and backed with React framer motion and styled components
- **Pexels by Albert** (Image Fetching App) - <https://frontalbert.github.io/Wallpapers/>
 - **Built using: (JAVASCRIPT / CSS3/ HTML5/ API)**
 - Image dump application built off React – search and filter for images you want
 - API fetch from PEXELS API request / Async/ Await properties
 - Responsive Design and downloadable images retrieving
- **Runify** (Tracking App for Running) - <https://frontalbert.github.io/runify/>
 - **Built using: (JAVASCRIPT / CSS3/ HTML5/ API)**
 - Tracking App for exercising based off location with tracking in steps and pace
 - Leaflet API for geolocation calls and precise grid outline.
 - Use of REST APIs, Async/Await with responsive design in mind for mobile
- **Color Palette** (Color Palette App) - <https://frontalbert.github.io/ColorPallet/>
 - **Built using: (JAVASCRIPT / CSS3/ HTML5)**
 - Allows users to create their own color palettes, ideal for those planning their own projects
 - Allow users to use Local Storage to save color pallets, and export options
- **React Site** (React Portfolio Template) - <https://front-albert-react-app.netlify.app/>
 - **Built using: (REACT.JS)**
 - Portfolio website built off React with routing, switches
 - Adaptive styling off styled-components and react frameworks such as framer-motion

Experience

- **Student – Juno College 2020-2021**
 - Learned HTML5, CSS3, Javascript and React Fundamentals
 - Created projects from scratch and deployed via Netlify/Github
 - Industry Standards and Responsive designed projects
- **Human Resources Coordinator – Dillon Consulting 2020**
 - Human resources coordinator – database HRP practices
 - Support the human resources department and business partners
 - Address and reach out to the company employees to address issues

EDUCATION

- **Juno College of Technology**, Web Development Immersive, January 2021, Toronto ON
- **Bachelor of Commerce**, Business Management, Ryerson University, Sept 2013 – Apr 2018, Toronto ON
