I am a **Front-End Developer/ Web Developer located** in Toronto, Canada. I have experience in popular technologies such as React.JS, JavaScript (ES6), HTML, CSS, and Responsive Design alongside with WordPress. I am a recent web development program graduate and am now currently self-teaching myself to further my knowledge. Along side with experience in working with development teams, I pride myself in being an excellent problem solver and a quick learner with strong attention to detail.
